

# MEDICARE URGENT CARE CLINICS

**Source:** <https://www.health.gov.au/find-a-medicare-ucc>

Urgent care is for when you need medical help for an illness or injury that's not an emergency but can't wait for a regular doctor's appointment.

Medicare Urgent Care Centers offer quick care and treatment for short-term health issues that don't need a hospital stay. This can include:

- minor infections
- minor fractures, sprains, sports injuries and neck and back pain
- urinary tract infections (UTIs)
- sexually transmitted infections (STIs)
- minor cuts
- insect bites and rashes
- minor eye and ear problems
- respiratory illness
- gastroenteritis
- mild burns.

Medicare Urgent Care Centers are open every day, with early morning and late evening hours.

Please remember to bring your Medicare card or number with you.
