Make a new friend, create a meaningful connection!

Community Club matches trained, friendly volunteers with mature community members to develop meaningful friendships. Volunteers visit their new friends on a weekly or fortnightly basis, engaging in activities together such as playing card games, gardening, listening to music, cooking and more.

If you or someone you know is interested in the program, we want to hear from you. Send us an email or head to our webpage (linked on the right) and fill out a referral form.

### **How does it work?**

If you receive a Home Care Package (HCP), or are waitlisted to receive one, we would love you to join the Community Club! You'll be matched with a new friend for ongoing visits to share quality time together and engage in activities that you both enjoy, creating meaningful connections.
